BY WASATCH CREST TREATMENT SERVICES

A Men's Residential Treatment Program

Tailored Treatment for Men

The Wasatch men's residential treatment program offers specialized, gender-specific treatment that is crafted to meet the unique needs of men struggling with substance use.

Focused & Individualized Treatment

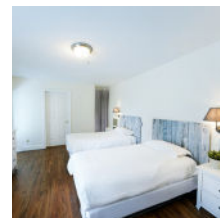

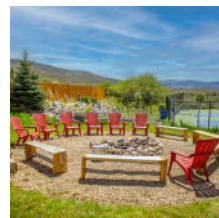

Our expansive mountainside estate provides a welcoming, healing environment for men seeking recovery from substance use. Personalized clinical care paired with experiential therapy that incorporates alpine adventure, is intended to help our clients to develop foundational skills necessary for recovery. Built on principles of accountability, transformation, resilience, self-discovery, and authenticity, the clinical curriculum integrates evidence-based therapeutic approaches such as:

- Cognitive Behavioral Therapy (CBT)
- Dialectical Behavior Therapy (DBT)
- Experiential Therapy
- Motivational Interviewing (MI)
- Medication-Assisted Treatment (MAT)

Through our carefully crafted clinical treatment, we aim to help men rebuild their lives with meaning and purpose.

Built-in Recovery Community

The Wasatch men's residential treatment program fosters a sense of brotherhood, enabling men to bond deeply with peers undergoing similar experiences. These genuine connections created during gender-specific treatment equip clients with a sober network to help navigate life after treatment.

A Continuum of Care

Through a continuum of care, we aim to support our clients during each step of their recovery journey. Our residential clients often go on to attend our outpatient and transitional living programs, designed to set them up for a fulfilling life in long-term sobriety.

In-network with most insurance providers and select Medicaid providers.

Join us at Wasatch Crest and start your path to recovery.
